

Toolkit To Push Massachusetts to Investigate Federal Agents for Civil Rights Abuses

(Updated January 19, 2026)

INTRODUCTION

Across the state, federal immigration agents have carried out warrantless raids, assaults, and detentions, including against children and U.S. citizens. These are part of a broader campaign of intimidation and political retaliation that threatens the safety of our communities and the constitutional rights of everyone who lives here.

When federal officials act unlawfully, state authorities have both the power and the responsibility to intervene. That is why Free Speech For People [sent a letter](#) demanding that the Massachusetts Attorney General and local District Attorneys open criminal investigations into these abuses and hold those responsible accountable.

Draft Phone Script:

Hello, my name is [NAME], and I'm a resident of [CITY/TOWN], Massachusetts. I'm calling to urge Attorney General Andrea Campbell to open a criminal investigation into unlawful raids and detentions carried out by federal agents in Massachusetts.

Since the summer of 2025, federal agents have repeatedly detained and assaulted Massachusetts residents without warrants or probable cause, including children and U.S. citizens.

Publicly reported incidents include:

- Warrantless detentions of teenagers
- Assaults during traffic stops
- Children transferred across state lines to evade court orders
- Arrests and deportations in direct defiance of judges

Under Massachusetts law, assault, kidnapping, and civil rights violations are crimes, and federal agents do not have immunity when they act outside their legal authority.

I'm asking the Attorney General to immediately open a criminal investigation into these actions and determine whether charges should be brought.

If the Staffer Pushes Back

(Choose one response — do not argue)

If they say "This is a federal issue":

Respectfully, when federal agents violate state criminal law, Massachusetts has both the authority and responsibility to investigate. Other states have already begun investigations into ICE officers for similar conduct.

If they say "The AG can't comment":

I understand. I'm not asking for a public statement. I'm asking that the Attorney General exercise her authority to investigate criminal conduct occurring in Massachusetts.

If they say "We'll pass along your comment":

Thank you. Please note that I'm specifically urging the Attorney General to open a formal criminal investigation into these incidents.

Closing

"Please let the Attorney General know that Massachusetts residents are watching closely and expect action. Thank you for your time."

SUBJECT: MA Prosecutors Need to Investigate Federal Agents for Civil Rights Abuses

(First Name),

This is urgent.

Federal immigration agents are carrying out unlawful raids across Massachusetts. They are detaining residents without warrants, assaulting people in the street, and even abducting children.

These are not isolated incidents. They are part of a coordinated campaign of intimidation and political retaliation, openly encouraged by President Trump and senior officials, targeting Massachusetts communities.

Here's what's already been publicly reported:

- Teenagers and U.S. citizens detained with no warrant
- Residents beaten during unlawful stops
- Children, including a 13-year-old with autism, violently detained
- Minors transferred across state lines to evade court orders
- People arrested and deported in defiance of judges' rulings

Under Massachusetts law, assault is a crime. Kidnapping is a crime. Civil rights violations are crimes. And federal agents do not have immunity when they act outside the law.

That's why we're demanding action from Massachusetts Attorney General Andrea Joy Campbell and local District Attorneys across the state. They have the authority and the duty to investigate these crimes and hold those responsible accountable.

WRITE A LETTER TO THE EDITOR:

(Below is a sample letter to the editor. Please feel free to make it your own and submit it to your local paper. Please remember most newspapers require that letters are 150 words or less.)

Federal immigration agents are carrying out unlawful raids across Massachusetts. State and local prosecutors cannot remain silent.

Public reporting has documented teenagers and U.S. citizens detained with no warrant, residents beaten during unlawful stops, children, including a 13-year-old with autism, violently detained, and minors transferred across state lines to evade court orders.

These are not mistakes; they are a pattern of intimidation and retaliation against Massachusetts communities openly encouraged by Trump and senior federal officials.

Under state law, assault is a crime. Kidnapping is a crime. Civil rights violations are crimes. Federal agents do not have immunity when they act outside the law.

That is why Attorney General Andrea Joy Campbell and local district attorneys must act now. They have the authority and the obligation to investigate criminal conduct occurring in their jurisdictions, no matter who commits it.

If state leaders remain silent, this lawlessness will spread. If they act, they can draw a clear line: no one is above the law: Not federal agents, not the president.

Massachusetts must defend the rule of law.

Sincerely,
[Your Name]
[City, State]
