 Re: New National Poll Data on Impeachment of President Trump
 Date: April 2, 2026

A new Lake Research Partners poll of likely 2026 voters nationwide¹ – commissioned by Free Speech For People – reveals **a majority of voters support the impeachment of President Donald Trump**. It is remarkable and, as far as we know, unprecedented for such a large proportion of voters nationwide to support impeachment of a president just 14 months into his term.

A majority of voters nationwide (52%) support President Trump being impeached, while 40% are opposed. Voters feel strongly about this issue on both sides – 46% strongly support impeachment while 37% strongly oppose. An overwhelming majority of Democratic voters support impeachment (84% support, 8% oppose) **as well as a clear majority of independents (55% support, 34% oppose)**. Though Republican voters largely oppose impeachment, about one in seven Republicans are in favor (14% support, 81% oppose).

Do you support or oppose President Trump being impeached?

¹ Lake Research Partners designed and administered this survey, which was conducted by live telephone (cell and landline) interviews and text-to-online from a sample of 800 likely 2026 voters nationwide. The survey was conducted March 26-30, 2026. Data were weighted slightly by gender, age, race/ethnicity, region, educational attainment, and partisanship to reflect the expected demographic composition of likely voters. The margin of error for the full sample is +/-3.5%.
