AN AGENDA FOR ACCOUNTABILITY AND POLITICAL REFORM

Free Speech For People (FSFP) is a national, nonpartisan nonprofit dedicated to strengthening democracy with expertise in constitutional law. Visit our website FreeSpeechForPeople.org, to read more about our work. This is our agenda for the 120th US Congress.

- → Time to Impeach
- → Ban Multinational Corporate Political Spending
- → Abolish ICE
- → Abolish Super PACs
- → Supreme Court Accountability & Reform
- → Big Tech Accountability Act
- → Overturn Citizens United
- → John R. Lewis Voting Rights Advancement Act

→ Time To Impeach: Impeach and Remove President Trump and Key Trump Officials

In the Constitution, there is only one true form of accountability when it comes to the President and cabinet members: impeachment and removal. We are calling for the impeachment and removal of Trump and his key officials, including HHS Secretary Kennedy, Secretary of State Rubio, Secretary of Defense Hegseth, AG Todd Blanche, and Secretary of Homeland Security Markwayne Mullin. FSFP's legal team has been documenting the hundreds of impeachable offenses that Trump and his key officials have committed. With over 1.1 million petition signatures collected and polling showing a majority of the American public supporting impeachment, there is a public mandate for the impeachment and removal of this administration. Read the case for impeachment and sign the petition at ImpeachTrumpAgain.org

→ Abolish ICE

ICE is a rogue agency that violates constitutional rights and civil liberties. A majority of the American public supports abolishing ICE. FSFP has been working with Congresswoman Delia Ramirez to abolish ICE and end immigration detention. We deserve a humane immigration system that makes our communities safer and honors the dignity of all who call our country home. Read more at AbolishingICE.org.

→ SCOTUS for Us: Supreme Court Accountability & Reform

The Supreme Court is mired in corruption and undue influence. Our highest Court is overdue for major reform to uphold the integrity of our judiciary. FSFP is calling for term limits, expansion of the Court; ethics reform accompanied by independent oversight; issue subpoenas and launch investigations against Harlan Crow and Leonard Leo; limit the Court's jurisdiction; and impeach Thomas, Kavanaugh, and Alito. Read more at our website FreeSpeechForPeople.org.

→ Overturn Citizens United: The Free and Fair Elections Amendment

The Free and Fair Elections Amendment sets limits on federal campaign contributions and spending; prohibits corporate spending in the political process; requires Congress to develop a system of public campaign financing for all federal candidates who qualify for the ballot; and allows the States to set reasonable limits on campaign contributions and spending in state and local elections. The amendment overturns Citizens United and other Supreme Court rulings which have so threatened our democracy. Read more at our website FreeSpeechForPeople.org.

→ Ban Multinational Corporate Political Spending

Congressman Jamie Raskin and Senator Sheldon Whitehouse have introduced the Get Foreign Money Out of US Election Act, a bill to ban political spending by multinational corporations with significant foreign ownership, covering 98% of Fortune 500 companies. This bold legislation has already been making waves across the country at the state and municipal level. Read more at our website FreeSpeechForPeople.org.

→ Abolish Super PACs

A small number of ultra-wealthy donors have an outsized influence on American politics, corruptly impacting our elections and our government and making it harder for regular people's voices to be heard. Congresswoman Summer Lee and Senator Bernie Sanders have introduced The Abolish Super PACs Act to stop corruption and prevent the ultra-wealthy from bypassing individual contribution limits. Read more at AbolishingSuperPACs.org.

→ Big Tech Accountability Act

Congressman Jim McGovern has introduced the Big Tech Accountability Act to hold social media companies accountable; to protect internet users, voters, and the broader community from the dangers of rampant amplification of disinformation and violence; and to protect personal privacy and autonomy online. Read more at BigTechAccountabilityNow.org.

→ John R. Lewis Voting Rights Advancement Act

The John Lewis Voting Rights Advancement Act would restore protections of The Voting Rights Act, which the US Supreme Court has attacked, and would bring us closer to a nationwide standard that guarantees every American an equal voice and an equal vote. Go to civilrights.org/john-lewis-voting-rights-act to learn more.
